iceGUARD G075

The dependable traction you want to keep you safe in winter.

Winter roads are anything but predictable and that's exactly why we built the iceGUARD® G075. No matter the condition, the iceGUARD G075 has the dependable traction you demand to keep you safe in winter.

SUVS, CROSSOVERS AND MINIVANS

The iceGUARD G075 is designed to deliver strong winter performance for SUVs, crossovers and minivans.

WINTER TRACTION

New directional tread pattern increases contact area providing superior grip on surfaces with snow and ice.

SUPERIOR HANDLING

Triple 3D sipes enhance stability for optimal winter performance.

LONG TREAD LIFE

High-density compound improves overall road contact resulting in longer, more even wear.

FUEL EFFICIENCY

Advanced low-heat generating under-tread compound increases stability and lowers fuel consumption.
